Would it be possible to install programs to an external hard drive and actually.. I use my mid-2012 11' MacBook Air for gaming and school work My hard drive is filling up fast, and I was hoping I could use an external hard drive and Boot Camp to run Windows for my games, thus freeing up most of my hard drive.. I am in the market to buy a portable pc Instead of buying yet another bulky laptop, I thought it might be nice to have a Surface.

All WD external drives function as storage devices that you can use on either the Windows or Mac Operating System without any additional software.

Ultimately, I would like to run Photoshop and Quickbooks on it I am curious, however.. Never attempt to disconnect the external hard drive from the PC while programs are running that are installed on the external hard drive.. Some WD drives come with backup software, but you are not required to use this software in order to use the drive effectively with your computer. [Age Of Empires Online For Mac](#)
